

Alan Haffa, Ph.D.
College Instructor

59

For 15 years I have improved the quality of life in Monterey County by serving on Monterey City Council, Monterey Peninsula Unified School Board, and numerous county boards (Monterey Bay Area Regional Governments, Central Coast Community Energy, Fort Ord Reuse Authority, Monterey One, Community Human Services).

I am a first generation college student who grew up in a working class family and went on to earn a Ph.D. To help others, I have dedicated myself to teaching English at Monterey Peninsula College. I am an Eagle Scout who met my wife at camp and we've been married for 37 years.

As a city councilmember, I have improved infrastructure, supported new business models, and enhanced community support services. I have supported affordable and workforce housing, rental assistance during Covid, and campaign finance limits.

If you elect me Supervisor for District 5, I will ensure county government is accountable, transparent, and inclusive. All voices should be heard; not just insiders. My vision for District 5 is a community where everyone is safe, workers and families can afford to live here, and youth and seniors are supported.

I delivered for the city and I'll deliver for the county. See electhaffa.org.
