

Statement of **LUIS ALEJO**, Candidate for
Monterey County Supervisor, District 1

Occupation: Monterey County Supervisor

Age: 49

Education and Qualifications:

I'm running for re-election to the Board of Supervisors because while Salinas is moving in the right direction, there's still much more work left to do. I haven't been afraid to take on our toughest challenges, like lowering gun violence, preventing the closure of Watsonville Community Hospital that serves north county residents, and working to provide broadband, high-speed internet access for all Californians.

I've worked hard to address our housing and homelessness crisis. I've also fought for major projects for our communities, such as the Salinas Regional Soccer Complex, the SHARE Homeless Navigation Center and the largest water storage project for the Salinas Valley.

Our region has faced unprecedented challenges in recent years, but as the past Chair of the Board of Supervisors, I led our county in assisting communities, like Pajaro, that were impacted by last year's devastating storms. I helped lead our county's efforts to protect public health and recover from the darkest days of the COVID-19 pandemic by providing needed resources to our families and small businesses.

I hope I can earn your vote to allow me to continue representing you. You have my commitment to continue uplifting and amplifying the voices of working families in Salinas.
